Integra Releases Virtual Print Module

Anacortes, WA – November 2017 – Integra LTC Solutions, LLC. has released the DocuTrack Direct Print Module providing remote, virtual printing capability. Fully HIPAA compliant, the module allows users to print documents directly into DocuTrack.

"Many of our customers were using ZAN printers, which are no longer supported," said Louie Foster, Executive Director of Product Management. "Printing into DocuTrack is used widely throughout our customer base and we wanted to provide a virtual print solution we can ensure remains supported."

Direct Print allows users to:
- Remotely print directly into DocuTrack
- Add watermarks to documents
- Print reports from the pharmacy system
- Read active document text
- Print directly to a specific department or user

Unique printer identification allows DocuTrack end-users to identify where any document is printed from, similar to how they currently utilize fax numbers for document origin. "DocuTrack routing rules can utilize the unique ID and text recognition in order to increase routing options for more automation and efficiency," says Foster.

All virtual printed documents are stored securely in volatile computer memory and transmitted fully encrypted using some of the software industry's strongest encryption technologies ensuring a fully HIPAA compliant transaction.

The advantages of virtual printing include:

- Cost Reduction: Reduce or eliminate costs associated with physical printing
- Versatility: With an outputted file, easily share information through email, via DocuTrack, and even on the web.
- Intuitive Adoption: Extremely easy to use, if someone can print a document on their computer, they can make use of a virtual printer to convert documents seamlessly.

For more information about the DocuTrack Direct Print Module, or to schedule an upgrade, please contact Integra Sales at (866) 257-4279 or email sales@integragroup.com. To learn more about Integra's suite of products and services, please visit www.integragroup.com.

ABOUT INTEGRA LTC SOLUTIONS, LLC.

Over 600 pharmacies experience reduced costs, higher productivity and profits, better customer service, and improved compliance with Integra's suite of pharmacy software solutions. DocuTrack is a superior workflow and document management system that automates paper, fax, and electronic processing. DeliveryTrack manages delivery processes with electronic signature capture, real-time delivery data, and route optimization. Logix is business process automation software that lets pharmacies automate repetitive, time-consuming, error-prone tasks.
