

FOR IMMEDIATE RELEASE – 6/1/16

### **Integra Attending GeriMed and ASAP**

Anacortes, WA – May, 2016 – Representatives from Integra will attend the Annual GeriMed Conference on June 15-17 and the American Society for Automation in Pharmacy (ASAP) Midyear Conference on June 16-18. Both meetings are being held in Louisville, KY.

At GeriMed, Integra Product Director Louie Foster was invited to participate on a panel discussion titled “Technology in Long-Term Care” where he will speak on workflow management prior to fill, exception management - new standards HL7-DIRECT and HIPAA compliant messaging, and post fill workflow/delivery.

“We work hard as a company to ensure our products and people are kept abreast of industry trends,” said Foster, “This panel provides an excellent format for discussing the emerging technologies we’re seeing, and why they are so crucial for pharmacies to understand and embrace.”

Following GeriMed, Foster will attend ASAP’s Midyear Conference joining representatives from technology providers as they review market trends, discuss current and emerging pharmacy automation technologies, and overview upcoming market opportunities.

“ASAP is a think tank for companies invested in pharmacy technology,” said Foster. “Networking with other pharmacy professionals provides invaluable insight to the Integra team. Information from meetings like ASAP helps shape the features and functionality of our products and ensure we are meeting the needs of our customer base.”
