## Delivery Management

DeliveryTrack gives long-term care pharmacies peace of mind for their deliveries. Reliable, budget-friendly Android devices give you signature capture, driver tracking, route optimization, delivery confirmation, UPS integration, and more so you get the information you need to provide the best service at the lowest cost.

### Intuitive Integration & Adoption

DeliveryTrack integrates seamlessly with all major pharmacy systems and Integra's DocuTrack software. Easy for admin and drivers to learn and use, DeliveryTrack allows you to keep up with daily changes and easily manage all aspects of your deliveries.

### Real-Time Tracking

Eliminate uncertainty. Track orders from start to finish and monitor where drivers and deliveries are in real-time for accurate information for your pharmacy and customers.

### Customization

DeliveryTrack works for your specific needs by mimicking your processes and preferences. Adjustable routes fit your customers' requirements, and budget-friendly devices provide the flexibility you need to grow your business.

### Service & Accountability

Get orders to your customer faster. Enable staff to tell them where orders are at every step of the process. Barcoding and item verification ensures your drivers are delivering the right items to the right locations.

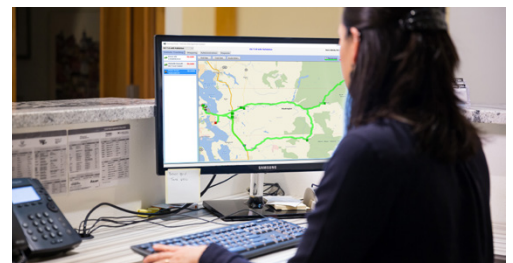

### Increased Accuracy & Information

Add barcodes to your totes and drop-off points to ensure accurate delivery of all items. Automatic notifications send after every completed delivery so you and your customers stay up-to-date with deliveries as they happen.

### Instant Cost Savings

Routing tools keep you and your drivers on task to save time and money, and flexible enough to respond to on-the-fly order changes to prevent costly re-deliveries.

*"DeliveryTrack is a great means of doing a check and balance for our audits, for our patients, and for us as a company."*

Jorge Garrigo, Director of Pharmacy Logistics  
- Leon Medical Centers

*"We chose DeliveryTrack because it's easy to use. Being able to have our drivers plan their route, plan their day is great. It's nice to have your employees work independently."*

Sonia Gale, Pharmacist - Hoagland Pharmacy
