

## Calculator Data. How did we get to the numbers you are seeing?

All data in the Logix calculator is taken from our current clients' actual Logix data.

- *Total Documents:* Includes all documents processed per month through DocuTrack.
- *Documents Processed:* Each Logix process handles 6% of total documents.
- *Minutes Saved:* 123 seconds is the average time saved per document when run through a Logix enabled process.
- *Hours Saved:* Minutes saved multiplied by 60 (per hour).
- *Cost Savings:* Hours saved multiplied by \$15.00/hr based on salary of average pharmacy technician.

These savings are estimates based on average savings based on existing client data. The calculator savings are not a guarantee.
